TechServe Alliance Announces Recipients of its Inaugural “Excellence Awards”

Honors given to top-performing IT & engineering staffing and solutions firms

Alexandria, VA, October 14, 2014 – [TechServe Alliance](#), the national trade association of the IT & engineering staffing and solutions industry, announced today the recipients of its first annual [Excellence Awards](#). The awards program was developed to recognize IT & engineering staffing and solutions firms that have demonstrated excellence through outstanding performance, team productivity and dedication to continuous improvement. Recipients will be honored during the [TechServe Alliance Annual Conference](#) in Boca Raton, Fla., November 3-5, 2014.

“We are increasingly finding that those firms that embrace a disciplined data-driven culture have a significant advantage over their competitors. Top-performing companies manage to leverage key performance metrics such as team productivity and continue to invest in developing their people,” said Mark Roberts, CEO of TechServe Alliance. “The TechServe Alliance Excellence Award represents these characteristics and is a mark of distinction that set these firms apart.”

To ensure independent and unbiased consideration of all applications, TechServe Alliance engaged [Inavero](#), a leading staffing industry research firm, to collect, tabulate and validate applicant submissions. Applicants were assessed based on three criteria: consistent revenue growth; highly effective and productive teams; and a demonstrated commitment to continuous improvement through ongoing team development. TechServe Alliance accepted applications from both members and non-members meeting the specific eligibility requirements. Recognition was given to the select group of top-performing firms across three categories: small, mid-sized and large enterprises.

“The quality of the submissions underscores the competitiveness of the IT & engineering staffing and solutions industry and highlights the extraordinary achievements of the award recipients,” added Roberts.

The Excellence Awards will be bestowed annually on the industry’s top-performing firms.
